

## COVID-19 Task Force

The COVID-19 pandemic has had a deep and wide-ranging impact on workplaces across the nation. Employers large and small alike have confronted unprecedented challenges that raise new and complex questions on a broad spectrum of employment law issues. To help guide our clients as they navigate these uncharted waters, Peabody & Arnold has assembled a COVID-19 Task Force of employment lawyers who are available to counsel employers during this turbulent time.

We encourage you to visit this page regularly for new content, or to reach out to members of our COVID-19 Task Force for guidance at any time as we confront this crisis together.

### COVID-19 Resource Library for Employers

The governmental response to the COVID-19 pandemic has created new obligations for small- and mid-sized employers at the federal and state levels. To assist employers with staying on top of rapidly-evolving employment law developments, our COVID-19 Task Force has created a COVID-19 Resource Library for Employers with a collection of key links to laws, regulations, and guidance from governmental agencies.

- [COVID-19 Resource Library for Employers](#) (last updated on March 2, 2021)

We will update this library as additional resources become available.
